Foot Mousse - Suitable for Diabetics

Emollient Spray Foot Mousse
Moisturises and Protects

- Maintains epidermal and dermal skin layer hydration where there is a decrease in natural moisturising functions;

- Maintains the skin's natural protective barrier function against environmental trauma, e.g. abrasion;

- Delivers a therapeutic concentration of 12.5%urea, which is suitable for the general public but specifically by the diabetic population on the feet and legs, including between the toes, that can be delivered as a controlled spray application;

- Rapidly absorbed without surface residue.

In an independent trial, 53 people who had Type II diabetes used the product over a 2-week period, charting the appearance of the skin on their feet with daily use of Foot Mousse.

81% of the participants reported that 'my skin felt healthier after using the mousse';
83% reported that 'the mousse made my skin more supple'; and
96% liked the texture and thought the mousse was easily absorbed.

CAR040	Diabetic foot mousse 150ml can	Unit of 6

Instruments

Diamond Burrs: PBS Diamond Burrs are manufactured in the USA and undergo an exclusive bonding process which permanently bonds diamond to the burr surface, resulting in long product life and high performance. More efficient than steel or carbide instruments with greater patient acceptance because of their reduced heat generation.

Pediroller

Podiatrist-designed exercise aid offers immediate relief from common heel and arch pain ***PediRoller*** *uses proven foot therapies to keep feet healthy and toned*

Helps stretch the plantar fascia, increasing flexibility and reducing pain
For the treatment of plantar fasciitis, heel spurs, arch pain and tired feet

Latex free
Ridged design aids circulation - Can be frozen for greater relief

No batteries or electrics required
Can be used quickly and easily whilst sitting reading, watching TV or just relaxing ***Exercise guidance leaflet included***

CAR080	PediRoller exercise aid	1 individually boxed PediRoller

PediRoller Kit

All the benefits of original PediRoller - but now ***larger*** *and with a* ***new profile***

Particularly beneficial for high arches

Exercise guide included

Includes 100ml tube of cooling foot massage gel

- ✓ ***Podiatrist designed***
- ✓ ***Immediate relief from heel and arch pain or tired and aching feet***
- ✓ ***Ridges reduce tension and stimulate circulation***
- ✓ ***Can be frozen to help reduce inflammation and pain***
- ✓ ***Latex free***

CAR090	PediRoller Kit with cooling massage gel	1individually boxed PediRoller kit

Cryospray 59 Liquid Cryogen

CRY300	Cryospray 59 300g can with applicators	Each
CRY350	Single use cotton wool tipped applicators	Pack of 12
CRY355	Plastic straw applicators	Pack of 12

T*he professional solution for effective verruca and wart removal. Based on the principle that living cells which are rapidly frozen are initially damaged and subsequently die from the effects of freezing, it is now widely thought that* ***the rate of cooling and thawing are more significant than the actual temperature achieved.*** ***Cryospray 59*** *is therefore designed to rapidly* ***freeze tissue to around -59ºC to achieve successful results with less pain than other cryogenic*** *treatments (such as liquid nitrogen) which can reduce tissue temperature to -185ºC, which may cause a large degree of pain.*

300g can - Delivers up to 60 applications
Supplied complete with 3 re-usable plastic straw applicators and 12 cotton wool tipped applicators for small warts/verrucae

Hapla-gel Skin Protection System

An advanced polymer gel system of pre-fabricated dressings and appliances

Cushion, protect and provide relief from the pressure and friction which cause many foot disorders Washable and re-usable, with mineral oil to soften and lubricate the skin
Conform to the shape of the digit
Safe and easy to use by the practitioner or the patient

All-Gel Products: ***Pre-formed shapes made from 100% polymer gel.***

Hapla-gel All-Gel Digital Tube*: Polymer gel tube, open at both ends. 8cm long. Cut to size as required.*

CHG268A	Small – 1.5cm diameter	Pack of 6
CHG270A	Medium/Large – 2cm diameter	Pack of 6

Hapla-gel All-Gel Digital Cap*: Tube, closed at one end. 5.5cm long. May be cut to size if required.*

CHG274A	Small – 1.5cm diameter	Pack of 6
CHG276A	Medium/Large – 2cm diameter	Pack of 6

Hapla-gel All-Gel Toe Prop*: Polymer gel toe support raises and realigns the toes to prevent painful rubbing and the formation of corns. Relieves the discomfort of hammer toes. Loop keeps prop firmly in place.*

CHG280A	One size; universal fitting	Pack of 6

Hapla-gel Bunion Protector*: Relieves pressure on painful bunions. Slim design fits easily into the shoe.*

CHG195	One size	Pack of 6

Hapla-gel All-Gel Digital Ring: *Polymer gel band, open at both ends. 2.5cm long.*

CHG260	Small – 1.5cm diameter	Pack of 6
CHG262	Medium/Large – 2cm diameter	Pack of 6

***Hapla-gel Toe Separator**: For light protection between the toes.*

CHG155A	Small	Pack of 12
CHG156A	Medium	Pack of 12
CHG157A	Large	Pack of 12

***Hapla-gel Toe Spreader**: Protects and realigns the toes.*

CHG144A	Small	Pack of 12
CHG145A	Medium	Pack of 12
CHG146A	Large	Pack of 12

***Hapla-gel Dots**: Relieve pressure and friction on the back of the heel.*

CHG191	One size	Pack of 12

***Hapla-gel Metatarsal Cushion**: Designed to prevent soreness and pain in the balls of the feet. Offers maximum comfort yet with a slim design which fits most shoe styles, even high-heeled ladies' fashion shoes.*

CHG400	One pair	Each

Hapla-gel Double Loop Toe Divider
Offer comfortable, gentle realignment of the toes with a soft spacer bar in the large size

CHG158	Small	Pack of 6
CHG160	Large	Pack of 6

Gel/Stockinette Combination Products: Polymer gel shapes on elasticated stockinette.

***Hapla-gel Digital Pad**: Elasticated stockinette tube, open at both ends, with a polymer gel pad. Relieves pressure points on toes.*

CHG096A	Small	Pack of 12
CHG097A	Medium	Pack of 12
CHG098A	Large	Pack of 12

***Hapla-gel Digital Tube**: Elasticated stockinette tube, open at both ends, with a full polymer gel lining. Stretch over the toe for all round protection. 15cm long.*

CHG126	Small	Pack of 2
CHG127	Medium	Pack of 2
CHG128	Large	Pack of 2

Hapla-gel Digital Strip**: Elasticated stockinette tube, open at both ends, with a strip of polymer gel. Roll over the toe for either plantar or dorsal protection. **71cm long.

CHG136	Small	Each
CHG137	Medium	Each
CHG138	Large	Each

***Hapla-gel Metatarsal Band**: Elasticated stockinette band with an integral polymer gel pad for protection of the metatarsal area.*

CHG161	Small	Pair
CHG162	Large	Pair

***Hapla-gel Digital Cap**: Elasticated stockinette tube, closed at one end, with full polymer gel lining. Roll over the toe for dorsal, interdigital and apical protection.*

CHG171A	Small	Pack of 6
CHG172A	Medium	Pack of 6
CHG173A	Large	Pack of 6

***Hapla-gel Digital Tip Cap**: Elasticated stockinette tube, closed at one end, with polymer gel inside the tip. Roll over the toe for apical protection.*

CHG181A	Small	Pack of 6
CHG182A	Medium	Pack of 6

***Hapla-gel Foot Cover**: Fully enclosed layers of gel for complete protection of the toes and metatarsal heads.*
Can be worn under hosiery.

CHG165	Small/Medium	Pack of 2
CHG166	Large	Pack of 2

***Hapla-gel Bunion Sleeve**: Elasticated stockinette band with an integral polymer gel pad designed to conform to the shape of the bunion.*

CHG167	Small/Medium	Each
CHG168	Large/Extra Large	Each

***Hapla-gel Footcare Kit**: A selection of the most popular Hapla-gel products, packed into a handy carrying case. A convenient and cost effective way to store and use Hapla-gel products. Ideal as a starter pack or for continued use.*

Contains: 4 x Digital pad small, 4 x Digital Pad medium, 4 x Digital Pad large, 2 x Digital Tube medium, 4 x Digital Cap medium, 4 x Toe Separator medium, 4 x Toe Separator large, 4 x Toe Spreader medium, 4 x Gel Dot

CHG500	Footcare kit	Each

Hapla-gel Orthoses

Manufactured from the highest quality medical grade silicone
Providing exceptional levels of comfort and conformability
Excellent shock absorbing properties: ideal for underfoot redistribution of pressure

Dual density system
Firm white silicone is strong and resilient: gives support and will not bottom out under repeated foot strike Softer, lower density silicone: for extra cushioning and comfort in areas which receive heavier pressure loads

Transferable between footwear. Hard-wearing and washable for longer life.

***Hapla-gel Heel Cups**: Absorb pressure and reduce stress at heel strike. For the treatment of plantar fasciitis, heel spurs and general heel pain.*

CHG251	Small	Pack of 2
CHG252	Medium	Pack of 2
CHG253	Large	Pack of 2

***Hapla-gel Full Gel Insole**: Redistributes pressure across the entire plantar surface of the foot. Softer gel provides extra protection for the metatarsal and heel areas.*

CHG300	Small	Pair
CHG305	Medium	Pair
CHG310	Large	Pair

***Hapla-gel ¾ Gel Insole**: Helps control the heel and support the longitudinal arch. Varus (medial) posting helps reduce excessive pronation. Also for the treatment of plantar fasciitis and metatarsalgia.*

CHG320	Small	Pair
CHG325	Medium	Pair
CHG330	Large	Pair

***Hapla-gel Sports Gel Insole**: Redistributes pressure across the entire plantar surface of the foot. Softer gel provides extra cushioning for the longitudinal arch and heel area.*

CHG340	Small	Pair
CHG345	Medium	Pair
CHG350	Large	Pair

Hapla-gel Modular Orthotic System

A biomechanically engineered system of pre-fabricated components providing immediate effective treatment for a variety of common foot disorders

For use with pre-cut insoles

or for posting underneath insole materials such as Poron 4000®

The self-adhesive components are re-positionable and do not bottom out creating a longer life, customised device which is well tolerated for greater patient satisfaction

Haplabase
Orthotic Insoles

High quality yet very cost effective – moulded EVA orthotic

Lightweight – designed to fit directly into the patient's footwear

Easily adapted – with the use of external heel raises and rear/forefoot posts

Wide range of adult sizes – available in UK sizes 3 – 13

Competitively priced – offering excellent value

*The perfect chairside base from which clinicians can build their orthotic therapy. Made from Ethyl Vinyl Acetate (EVA) and a durable, low slip material top cover, the **Haplabase Orthotic Insoles** have an external EVA shell designed to support the sub-talar and mid-tarsal joints, an accommodative 15mm heel cup and a contoured arch. This lightweight and easily adaptable orthotic can be placed immediately into footwear to provide comfort and support.*

2° Rearfoot Wedge *Shaped to fit to Haplabase's rearfoot plantar surface Offering a 2° varus or valgus rearfoot posting*

4° Rearfoot Wedge *Shaped to fit to Haplabase's rearfoot plantar surface Offering a 4° varus or valgus rearfoot posting*

Met Pad
Shaped to fit to Haplabase's dorsal forefoot surface
Offering a 3mm met pad function to assist in metatarsal dorsiflexion and digital extension

All with a self-adhesive backing for ease of application

BAS200	2° rearfoot wedge, grey EVA 4°	Pack of 3 pairs
BAS205	rearfoot wedge, blue EVA Met	Pack of 3 pairs
BAS210	pad, brown	Pack of 6 pads

Self-adhesive EVA Wedges: *Offer the clinician a chairside addition for the Haplabase insoles allowing a range of posting options to be utilised. Alongside the specially designed rearfoot wedges and metatarsal pads, the wedges add to a customisable system for the Haplabase orthotics.*

Three self-adhesive options offer a range of sizing to meet current podiatry practice. Each strip measures approx. 197mm x 65mm.

WED302	2° brown, self-adhesive	Pack of 6
WED304	4° blue, self-adhesive	Pack of 6
WED306	6° red, self-adhesive	Pack of 6

Powerstep Orthotic Insoles

Affordable orthotic laboratory technology straight from the pack
prescription-like arch support – stabilising heel cushion – double-layered cushion insole – antibacterial fabric top cover
Relieve arch, knee, back and heel pain

Based on extensive computer analysis of the average dimensions of thousands of pairs of feet, Powerstep is a unique support system whose development and design is founded in 35 years' experience of creating and prescribing customised orthotic devices. Powerstep stabilises and corrects alignment by reducing excessive pronation and realigning foot posture, helping relieve pain and prevent injury. Prescription-level support with calibrated flexibility for comfort and a stabilising heel cradle and fully covered from heel to toe with an antibacterial fabric: a highly attractive and professionally finished yet very affordable prefabricated orthotic podiatrists will be proud to prescribe.

Powerstep SlenderFit – Specially designed for ladies' fashion footwear

- Ultra slim design for low profile and inconspicuous wear
- Tapered shape fits most women's shoes; shorter length leaves extra room at the toes
- Extra cushioning from the built-in metatarsal pad alleviates pressure under the ball of the foot for greater comfort and protection with a soft, supportive feel
- "S"-shaped shell design cradles the heel and provides full arch support for increased stability
- Natural grip of foam underside holds orthotic in place
- Easily moved from one pair of shoes to another
- Antimicrobial top fabric reduces heat and friction
- Ideal for preventing and alleviating foot pain and discomfort associated with wearing fashion footwear such as: *Metatarsal (ball of foot) pain, Heel pain, Arch discomfort, Sore or aching feet, Lower leg pain, Lower back pain, Bunions, Hammer toes*
- Use in women's fashion shoes, including high heels, wedges, pumps, boots, flats and sandals
